TCL Inverter Air Conditioner

Elite Series | Rapid Cooling Natural Unbounded

Generator Mode

Extreme Cooling

Double Side Rust Proof

Stable Heating at Extreme Low Temperature

The compressor self-heating technology enables our air conditioners to heat stably even at a low temperature of -4°F .

-4°F

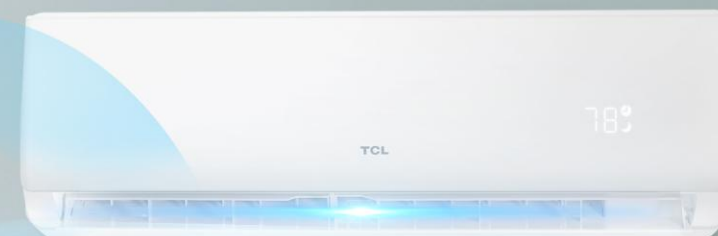

78°F

4-way Airflow

In a wide indoor space, up to 72 angles of air supply provides users with targeted, even, precise and more comfortable refreshment.

Fast Cooling and Cozy Warmth

The TCL high-frequency compressor ensures better comfort, with air delivering up to 64°F in just 30 seconds or up to 104°F in just 60 seconds.

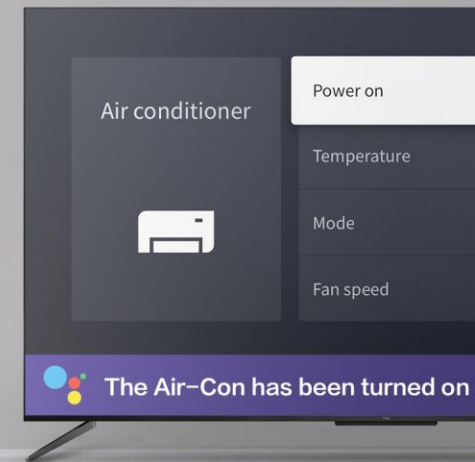

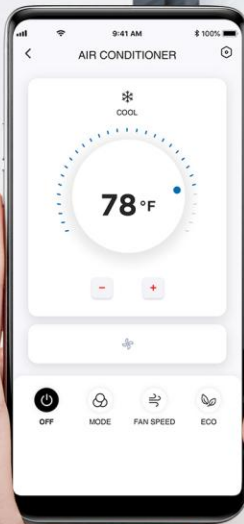

22 dB Lowest

It realizes 12Hz ultra-low frequency energy-saving operation, and can run up to 120Hz, so that you can enjoy a quiet and comfortable environment.

Wi-Fi Control

Controlled via the Wi-Fi app, you can control the operating status and temperature control of the air conditioner anytime and anywhere

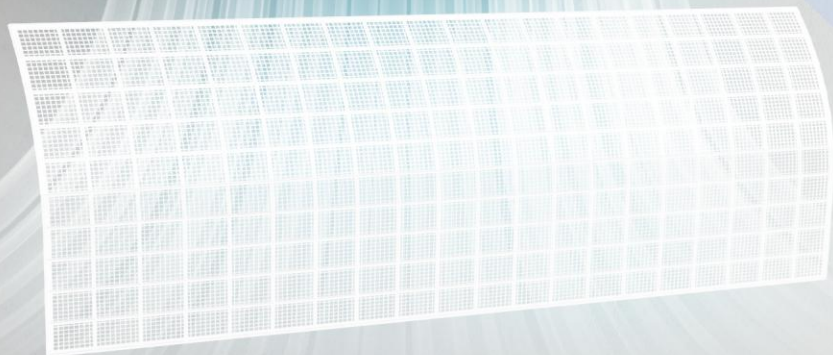

Sleep Mode

Once activated, sleep mode helps the AC run at lower capacity to ensure energy-efficient performance, while maintain a narrow temperature fluctuation throughout the night, therefore providing quiet, pleasant and undisturbed sleep.

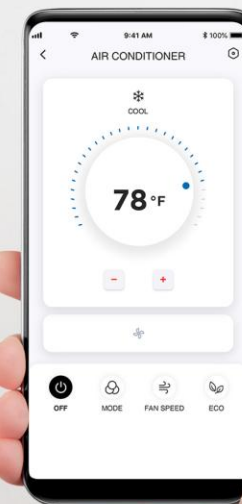

Generator Mode

Filter Cleaning Reminder

Built to remind you when it's time to clean the filter automatically. And this reminder shows up on display or TCL HOME APP

ECO Mode

Hit Eco Mode for efficiency-optimized 78°F program. Be kind on the environment, saving electricity bills and maintaining a tight temperature range.
